

SHPDirect Rx

Benzathine Penicillin (Bicillin L-A) Delivery Program

Untreated syphilis infections can lead to **severe health issues**. In pregnant women and newborns, syphilis can cause:

- **Miscarriage**
- **Stillbirth**
- **Low birth weight or other birth defects**

Bicillin is the CDC- recommended **treatment for syphilis** in pregnant women. **You may qualify** to receive deliveries of individual Bicillin doses for your patients **free of charge**.
