

## SHHP RWB FOOD BANK/VOUCHER GUIDANCE

Food Bank/Food Voucher services for people living with HIV are intended to improve health, nutrition, food security and quality of life. Good nutrition has been evidenced as an important element of general health and well-being.

This list of 'allowable' provisions is only a sample. If a client has a need not listed below, contact SHHP Support Services Monitor for consultation about how to determine and document justifiable needs.

The list below of 'not allowed' means those items cannot be paid for with Ryan White Part B funds. Clients may still have need for those items; seeking other community resources to best meet reported needs is encouraged. See also SHHP Services Standards and HAB PCN 16-02 for further details.
